Dear Sir

With reference to the G O 23 September appointing a Commission to sit during the Whitsuntide to deal with certain Questions relating to Special Areas - I request that very speedy Attention may be given to this matter

Let me know on what date or date the Committee is likely to meet and how long the deliberations of the Committee are likely to last.

My reason for troubling you on the subject is that I wish to know by what date I can arrange to return to my District rejoining my family en route at Bangalore.

Thanking you

My dear Sir,

Enclosed is a form for Statistics of Hobles of Talukas as these Hobles are proposed to be constituted by the Committee appointed for the purpose. It is a copy of the form as finally approved by the Committee last evening.

I shall feel much obliged by your sending me returns for each Taluk of your district prepared in this form as soon as possible.

It will save trouble if the Statistics are tallied with the annual Revenue Accounts and Returns for 26-97 -

Kindly observe the footnotes appended to the form, particularly that relating to maps to accompany.

It is presumed that care will be taken that as far as possible a Chaplain's charge lies entirely in one Hobly.

I send herewith also a distribution list by grades of Salary, and Horse-allowances as resolved upon.

Sir,

As desired in your D.O. letter of the 14th Ultimo, I have the honor to forward herewith the statistical return prepared in the form prescribed by the Committee, relating to the proposed re-adjustment of Taluks or Talukdari Circles in the Kadur District, and to state that the said return (marked A) embraces the statistics derived from those of the Taluks as now existing to accord with the proposals made by C.R. Campbell, the then Deputy Commissioner of the District, in his letter No. 33, dated 23rd September 83,

In dealing with this subject the proposals have been closely followed.

2... In order to enable the Committee to judge of the extent to which the proposed readjustment with a view to a detailed Explanatory Memorandum /marked B/ accompanies, showing the changes proposed in regard to each Ward in each of the Talukas will come under readjustment, together with a Revenue Survey Map in the case of each Taluk is illustrated the Wards boundaries under the altered arrangement, the villages comprised in each being numerically indicated on the map.

3... In facilitating comparison between the existing and proposed Wards Wards a nominal list of villages marked C is also enclosed. The names entered in red ink are those which have been added or the existing ones by transfer

from other Holds or Title deeds against the addition to constitute the proposed Holds.

4. Thus in the column 4, mentioned above, will be found also the statistics required in connection with the formation here-after of the new Taluk of Bellamane, in accordance with the orders of Government contained in Proceedings &c. $\frac{\text{G.O. 4-7}}{\text{R 3145}}$ of the 3rd April 1907. This measure involves the transfer on the one hand of certain Holds to other Taluks in their entirety and subdivision of one or two Taluks on the other. For details vide Explanatory Memo.

5. The variation between the present and proposed arrangement of the Sheristari Ranges will become apparent on a reference to the final statistics of the areas as at present existing, which are shown in Appendix D.

as also to the particular qualities in officials and the quality of duties regarded each Talukā.

O. Appendix E is the classification list of the several Ranges to which Sheristars of grades or seniority are ordinarily to be assigned. The classification is arrived at as far as possible on a consideration as well of the average quantity of work performed by the Sheristar during the last 5 years by way of disposing of the records on various matters falling within his functions, as of other circumstances consistent with the requirements and efficient working of a Sheristari Range. And owing to the special difficulties of work and of residence and travelling in the Nainad, a large proportion of the higher grades is assigned to the Nainad Range, as will be clear from the distinctions indicated in the Appendix. In many cases the grading of Sheristars, the

total number allotted to the District, viz, 34,20, reduced by one, consequent on the combining of the 2 small Talukas of Bolai and Sookere into one Talukha, as the Kopya Taluk

7. The Revenue Survey Maps of the 5 Talukas and a sketch map of the new Balehonnur Taluk accompany — as desired in your D.O. for the reply.

My dear Sir,

I beg to acknowledge receipt this day of your letter No 761 dt 10th instant and annexures in re Sheikdars' charges.

In Statement 4 appended to the letter, I find statistics in Columns 5 to 10(a) given for each Hobli in two lines marked respectively G (meaning Government) and I (meaning Inam). I beg to enquire whether the latter includes only alienated entire villages, or only minor Inams in Government villages or both

both. The columns were
intended only for Govt.
Villages including of course
Minor Inams therein, x
not for alienated entire
villages for which no
cultivation statistics
are maintained in
Talúk offices. I therefore
take the second line of
figures marked I, to mean
to refer to only Minor
Inams in Govt Villages,
and wish to make sure

My dear Sir.

I send by today's post, four Talik maps showing the proposed constitution of Taluks in Chitaldroog. In addition to changes are wanted in Chitaldroog, Hyalkera and Molakalmuru. In Chitaldroog the changes that have already been sanctioned have not been shown on the map. I have applied for a copy of it and as soon as it is received I shall show there the Taluks as they stood at present and send the map for Hyalkera on working out this map I found that in the Hiriyur Taluk one village Byadarahalli, that belongs to the Davangere Taluk is so situated that it is nearer to Hiriyur Taluk. The boundary of this village has a curtain village Ishwarapura which is now included in Davangere Taluk. In this position in case there is trouble out of epidemic

assessment

and assign villages belonging to it to two different Kabalis - as the Kabalis cannot belong to two separate Talukas, the arrangement is not very neat in the case of the Kandahar. If you approve of this arrangement they should direct the following corrections in the statement sent from this office. Or if the statement is sent back to us shall put the corrections ourself and return the statement by the next mail.

No. 1196.

Dated 20th March 1893.

To,

The Chief Secretary
to the Government of Mysore

Sir,

I have the honor to report that
when the town of Seringapatam and Ganjam
were under direct British Administration
before the Rendition, the revenue was Collected
and accounted for by two officials named
respectively the Shanbhogue and Manégar
under the Supervision of the Hobbagram —
Amildar. They did not receive any regular
money allowance or monthly pay but the
marginally noted* inch lands had been
assigned to their office as Inam. At the
Rendition the Fort and the Island were
transferred to the Mysore Government
but these officials were not disturbed. During
the

incompetent for the office the petitioner's
father Venkatesiah was appointed & it that
after his death his son the petitioner was
appointed to the office as per Division Superin-
tendents order No: 961 dated 22nd January 1872;
that village Patels are called Monegars in
British Territories and that Similarly the
Patels of some parts of T. Narasipur Taluk are
often called by that name. The Amildar fur-
ther states that the Monegar's appointment
was being entered in the Barabalutti register
from the beginning; that the office of Patel
being hereditary and the present incumbent
having succeeded his father and as the Inam
land was duly confirmed in the Inam Settle-
ment and has been in the enjoyment of his
family for upwards of 30 years he should
be regarded as the hereditary Patel and that
there was no necessity for making a separate
appointment. He also suggested that the Potige
amounts to the office might be paid to the
Monegar after deducting the Beriz amount
& the Inam land enjoyed by him as in done

in

to Serungapatam and that the Patagi fixed for the office should be paid to him less the Peiry amount of the Inam land enjoyed by him as was done in the case of the Shanbhoque.

4. These petitions were forwarded to the Amildar for report who in reply stated that he had at first thought that the monegaro duties were more of a Shaikdar and that consequently he had recommended that a separate person might be appointed for the Patel, that on the perusal of the Barabaluti register and on a consideration of the nature of the work performed by the Manegar which is almost the same as that of a Patel, he was inclined to look upon the Manegar as the Patel.

5. The Sub Division Officer submitted the whole proceedings for my orders and on the present Amildar being called upon to furnish further information he reported (Vide pages 111 and 128) that one Mahomedan named Ibrahimsab was the manegar formerly, that on his getting old and his son being found incompetent

the Survey and Settlement however Pokages were fixed both for the Shambhoque and the Patel and it was ordered that the Benefit amount of the Inam land enjoyed by the Shambhoque should be deducted from the Pokagi amount fixed for his appointment, and the balance paid to him annually in Cash.

2. On the recommendation of the then Amildar the Sub Division officer, by his appointed order No. 249 dated 16th July 1891, One Venkatramiah residing in Seringapatam to the newly created office of Patel and authorized him to receive the Pokagi sanctioned for the appointment. Nothing was said however as regards the position and duties of the Manegar or the Inam enjoyed by him.

3. The manegar then complained to the Taluk Sub Division, and the District officer stating that, though called manegar he was virtually the Patel of the place, that his name was entered in the Barabakuti register, that he was doing the Patels duties as a hereditary, that no separate Patel could be appointed

in the case of the Shambhogue. The Amildar also reports that Rs 7348. are the Potagi amount fixed for the Shambhogue and the Patel respectively that the market value of the Inam lands assigned to them is Rs 300 and 250 per acre and that the manegar still continues to perform the Patel duties while the new Patel is virtually doing nothing. I have not been able to get at any references showing how the two appointments of Shambhogue & manegar were originally sanctioned and on what conditions the Inam lands were assigned to them. It is not clear how the present manegars father succeeded as mokhadam and whether under the circumstances the manegar can be considered to hold the appointment by hereditary right.

6. I beg therefore to submit the papers for the orders of Government as to whether the present manegar may be treated as Patel of the village and he may be allowed to enjoy the Inam lands which are valued at about Rs 1500/- and receive the Potagi less the assessment fixed on the Inam lands.

one Venkataramiya was appointed as Patel on the 16th July 1891 but that he is virtually doing nothing.

(2) Petition No. 183 of 1892-93 from the Manegar of Seringapatam.

No. 12226
Dep 1180.

Order thereon

Dated Bangalore 24/30 January 1894.

Under the circumstances stated, the present manegar may be treated as Patel of the village and allowed to receive the Potagi less the assessment of the Inam lands held by him. 2. Venkataramiah who was appointed Patel in 1891 under the erroneous impression that there was no claimant may be allowed the Potagi up to the date if he has done any duties connected with the Office.

The average minimum distance from the nearest village to the Hobli Head Quarter is stated to be 6 miles for this District. Same

am unable to understand this statement or how it is calculated as the nearest village in a Taluk would be the Kabba itself and average minimum distance would be nil. If this view is correct, this statement as regards this & other Districts will require reconsi-deration.

I am in receipt of your letter of the 5th inst.

The distances arrived are distances of the remotest (and nearest) villages from Hobli Headquarters in each case. In the Kolar Taluk, for example there are to be 6 Hoblies. In them, the distances of the remotest villages from Hobli Headquarters are 7, 7, 6, 6, 6 & 7 miles respectively. Thus in that Taluk, the maximum distance of the remotest village in any Hobli from the Hobli Headquarters is 7 miles and the minimum distance is 6 miles. Thus reckoned, the figures for the

Encl: maps and statements.

Sir,

In continuation of my reports cited in the margin on the Sheikdars Service in Mysore, I have the honor to submit herewith maps and statements since received from the

No: B & q 4th Feb/98
Report dated 17th Feb/98
No: D dated 7th April/98

Deputy Commissioner of
the Bangalore District to
illustrate the proposals
regarding Sheikdars' ranges
in that District. If this
had been received suf-
-ficiently early, paragraph
31 of the Report dated 2nd
February last would have
read as given in the
paper hereto annexed.

I have &c.

21. In the Bangalore District for which maps and statements are herewith submitted, there are 9 Taluks divided at present into 75 Hobblies. The committee considered that two Hobblies could be dispensed with in each of the two Taluks of Devanahalli and Nelamangal three Hobblies in each of the four Taluks of Anekal Hoskote, Kankanhalli & Chennapatna and four Hobblies in each of the

* One of these 4 Hobblies in the Hoskote Taluk is the Nimsirie one where a Shekdar is employed exclusively for the lands under the Hobblies in Taluk.

Villages covering an area of 23 Sq. miles and realizing a land revenue of Rs 17,791.

As regards the remotest village of the Hobli from its proposed Head Quarters, the average maximum distance is 10 miles and the average minimum is 6 miles. The greatest is 13 miles which occurs in two cases (Shemmankar Aboodalli and Kodiballi Hoblies) in the Kankanhalli Taluk and Vagata Hobli in the Hoskote Taluk and the shortest is 5 miles which occurs

in

two Taluks of Doddaballapur and Magadi. The Committee were of opinion that no reduction was feasible in the Bangalore Taluk and the Deputy Commr now proposes the addition of a new Hobli (Hesaraghatta) for that Taluk. Adopting the Deputy Commr's recommendation, the number of the reductions for the entire District will be 23, ~~Making this reduction in all~~ and there would remain 52 Hoblies for the entire District, ~~both~~ each

The Reason given for this addition is not stated & the subject in the receipt of the present Conservancy arrangements in the last Constituting the Cantonment area of the Civil & Military Reserve in the name of the Bangalore Water Supply. It will indeed be desirable to transfer all the Villages in the Cantonment area of the Bangalore Taluk so that they may be under the Civil Police of the Bangalore District. But this will be for the Police whereas the Hobli in charge of the Conservancy arrangements should be reckoned among the Ordinary Revenue Establishments of the District. Adopting however
